 transmitted by facsimile on the date shown below to the United States Patent and Trademark Office at 571-273-8300.

August 9, 2005  
Date

Signed by: Andrea Newhouse

Dear Sir:

Pursuant to 37 CFR §§ 1.56, 1.97, and 1.98, enclosed is a completed Form PTO-1449, citing references submitted for consideration by the Examiner. It is respectfully requested that the Examiner initial and return the enclosed Form PTO-1449 to indicate that each reference has been considered.

Copies of any cited foreign patents, foreign publications, non-patent literature documents, and any pending U.S. applications filed before June 30, 2003, are enclosed. Copies of any pending U.S. applications filed after June 30, 2003 that can be accessed on the USPTO's IFW system are not enclosed as per USPTO Waiver dated September 21, 2004. Copies of any U.S. patents and published U.S. patent applications are not enclosed.

The reference entitled "Inquiry Documents" is a collection of documents relating to an inquiry from an outside party who expressed interest in using 3M's multilayer polymeric UV mirror film in combination with an LED and a phosphor. For reference purposes, consecutive page numbers have been added at the bottom of each page. In the case of the emails from Larry R. Gilbert dated 03/19/2001 and 03/20/2001 (pages 4 and 31), printouts of the respective electronic file attachments are provided. On information and belief, each of the sheets of UV

mirror film that were sent in connection with the letter on page 29 and the letter on page 54 was a polymeric multi-layer optical film having alternating coextruded and biaxially stretched layers of PET and co-PMMA and having a single normal-incidence reflection band (measured at half-maximum) that extended from about 320 nm to an upper wavelength limit that ranged from about 430 nm to about 460 nm, depending on the position on the sheet. Each sheet was flexible, and was made by 3M Company in the United States. The letter on page 54 was sent on or about May 2, 2001, with two sheets of the UV mirror film, about 6x6 inches in size.

It is believed that no fee is due; however, in the event a fee is required, please charge the fee to Deposit Account No. 13-3723.

If a first Office Action on the merits has been mailed prior to the mailing date of this document, please charge the fee for consideration of an Information Disclosure Statement set forth in 37 CFR § 1.17(p), and if necessary, please charge any additional fees, or credit any overpayment to Deposit Account No. 13-3723.

Respectfully submitted,

8 August 2005
